ALLOWANCE

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview between Peter T. Holsen and Frances P. Oropeza on 1/5/05.

The application has been amended as follows:

Claims 29-34 have been cancelled.

Reasons for Allowance

2. Claims 36-42 are allowed. The following is an examiner's statement of reasons for allowance: The subject matter of the independent claims could either not be found or was not suggested in the prior art.

The Applicant's response and amendment of 11/5/04 clearly discloses why the rejection of record (US 6149587 to Raines, US 5474090 to Begun et al., US 6380921 to Nakamura) does not read on the instant invention. As discussed in the response, the subject matter not found was a medical testing system comprising a movable cart and a keypad, in combination with the other elements of the claims.

The allowable claims were newly submitted, hence the following prior art references are submitted to show the best prior art found. US 6506155 to Sluis discloses an ultrasound imaging

system, but the system does not comprise a printer or an illuminating component, in combination with the other elements of the claims. US 5178149 to Imburgia et al. disclose a console and display unit (13) used with electrocardiograms and echocardiography, but the central control system is not housed on a cart, and does not include a printer and illuminating component, in combination with the other elements of the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
